Bain R
Why investors should be cautious of planners wearing rose tinted spectacles **8.274**

Bogenberger K, Spangler M and Schulz A
A new rerouting control system which is based n fuzzy logic **2.44**

Bossom R and Jesty P
ITS architectures – their role in planning ITS deployments **9.318**

Boyce A, Porter S and Kovacevic V
Post implementation evaluation studies Part 1 **3.108**

Boyce A, Porter S and Kovacevic V
Post implementation evaluation studies Part 11 **4.146**

Clarke E
Quiet lane initiative – taking rural roads on a trip down memory lane **10.354**

Clark S and McKimm J
Using GPS to collect journey-time information **4.126**

Clark S and McKimm J
Geographic comparisons between the censuses of 1991 and 2001. **11.395**

Costello S B
A study of the starting behaviour of vehicles at signalised intersections. **11.409**

Debell C
Technology that was tailor-made for the Met **3.95**

Debell C
A unique opportunity to unlock Chinese market **4.124**

Debell C
VAS – effective but not a panacea for all speed-related problems **7.234**

Debell C
White lines – study shows their absence may be a safety plus **9.316**

Debell C and Jeanes P
Is the Commission's latest draft a directive too far? **9.314**

Dumsky G
An intelligent approach to making tunnels safe **3.98**

Enoch M
Pooling together: why the vanpool works in the US and the Netherlands **1.12**

Enoch M
Getting the bus to work: why quality bus corridors work in Dublin **7.252**

Enoch M, Potter S and Titheridge H
Improving bus service provision: a review of current UK planning **2.63**

Enoch M
Getting the bus to work: why quality bus corridors work in Dublin **7.252**

Enoch M and Warren J
Necessity nudges Cuba towards a less transport intensive society **8.278**

Gunay B
Methods to quantify the discipline of lane-based driving **1.22**

Higginbotham M and Rye T
Left turning behaviour across a bus lane on the major carriageway **5.187**

Hollinshead L and Rostron D S
Stoke-on-Trent City Council embrace UTMC with unique 'front-end' approach **6.202**

Hopkin J and Polk A
IBEC – International Benefits Evaluation and Costs group for ITS professionals **8.276**

Lynam D, Sutch T, Broughton J and Lawson S
The European Road Assessment Programme – completing the pilot phase 2001& 2002 **5.168**

Maxwell B
Intelligent transport systems and their role in the road network of Northern Ireland **10.372**

Meehan D
MOVA – we know it's good, but just how good is it? **8.295**

Mitchell G, Namdeo A, May T and Milne D
The air quality implications of urban road user charging **2.57**

Moore B
Forty years of highway telecommunications **1.8**

Mortimer K
Technology readiness – managing the future **10.368**

O'Connor G
Mattisse developments in the traffic and travel information market **10.360**

Otlet G
Achieving greater success for travel plans **6.219**

Papageorgiou M and Dinopoulou V
Disaggregation of cross-lane loop measurements of occupancy **5.178**

Parkin J
Comparison of cycle use for the journey to work from the '81, '91 and 2001 censuses **8.299**

Retting R
Speed cameras – public perceptions in the USA **3.100**

Rode S
MoDis – increasing public transport use by young adults at night **6.222**

Rodrigo F and Valenzuela E
A model to predict bus commercial speed **2.67**

Sanchez de Muniain J M and Beckmannn J
Safety experts and the motor car lobby meet head on in Brussels **7.255**

Simmonite B and Chick M
The Displaced Right Turn junction – putting theory into practice **7.237**

Shahin M, Engelman F and Friedrich B
Using the motorway hard shoulder in congestion to allow drivers to exit **7.258**

Shahin M and Friedrich B
Sustainable mobility challenges – best practice from Germany **11.403**

Spence J
MOVA – coming of age? **8.292**

Stegmann J
Flights of fantasy in smart CAPSI capsules **4.142**

Storey B and Holtom R
The use of historic GPS data in transport and traffic monitoring **10.376**

Tenekeci G and Fry G
Using micro-simulation modelling to appraise a major transport scheme **9.337**

Thancanamootoo B and Radia B
UTMC – progress report **4.133**

Thancanamootoo B and Radia B
UTMC – looking beyond demonstration **10.372**

Tong C O, Hung W T, Lam W, Lo H K, Lo H P, Wong S C and Yang H S
A new survey methodology for the annual traffic census in Hong Kong **6.214**

Tudge R
The impact of the Olympics on existing travel in Sydney **1.28**

Tveit O
Common cycle time – a strength or barrier in traffic light signalling **1.192**

Washington O et al
Monitoring real-time vehicle performance and emissions **3.102**

Yulianto B
Application of fuzzy logic to traffic signal control under fixed traffic conditions **9.332**
